FOR IMMEDIATE RELEASE

SpectrumSCM WINS JAVAPRO 2006 READERS' CHOICE AWARD
"Best Pure Java Packaged Client/Server or Distributed Application."

Atlanta – June 20th, 2006: Atlanta based Spectrum Software, Inc., a systems designer and developer of software productivity tools, is honored to announce that SpectrumSCM has received the Java Pro 2006 Readers' Choice Award for "Best Pure Java Packaged Client/Server or Distributed Application."

The Java Pro Readers' Choice Awards recognize Java technology-related products that have done the most in their category to help advance Java technology development. Winners are selected through a controlled online balloting process. Thousands of Readers were asked to select the best Java tools, components and products in 21 categories.

Java Pro (www.javapro.com), the leading independent magazine for *Java Pro*fessionals, announced the winners of the *Java Pro* Readers' Choice Awards during the eighth annual Java Technology Achievement Awards reception held Wednesday, May 17, at the "W" Hotel in San Francisco.

Spectrum Software, Inc stands in line with Oracle, Sun, BEA, Eclipse, IBM, Apache, Macrovision, Business Objects, db4objects, JBoss, and JUnit to receive this desired award. *Visit the following link for details –* http://www.ftponline.com/mediakit/about/news/news77.asp

SpectrumSCM® is the first truly integrated, platform independent, full-featured (*Version Control, Issue/Defect Tracking, Change Management, Process Management/Control, Workflow, Release Management, Parallel Development*) source configuration management system in the market place that provides full CM functionality with one fully integrated SCM system. SpectrumSCM provides comprehensive source configuration and management for any 'e-Asset' from origination through delivery, maintenance, and support.
